

Lidotrode®

Medicated TENS Patch

Transdermal Lidocaine 4% + Magnesium, Aloe, & Arnica

In-Office & At-Home Therapy
NDC 83295-6400-4

A 2-in-1 Approach to Pain Relief

Lidotrode® is a first-of-its-kind pain relief option that combines the benefits of TENS / E-Stim Therapy with the lasting pain relief of transdermal Lidocaine 4%. With removable wires, Lidotrode® can seamlessly transition from TENS electrode pads to long-wear transdermal pain relief patches. Utilized in-office and at-home as a versatile, multimodal approach to pain.

Durable Hydrogel Adhesive

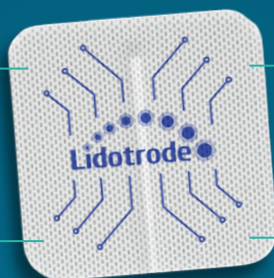

Durable adhesive for superior adhesion & optimal conductivity during treatment.

Transdermal Delivery

Durable adhesive for superior adhesion & optimal conductivity during treatment.

Removable Connector Wires

Wires can be removed after treatment and patches left in place for extended pain relief.

Transdermal Lidocaine 4%

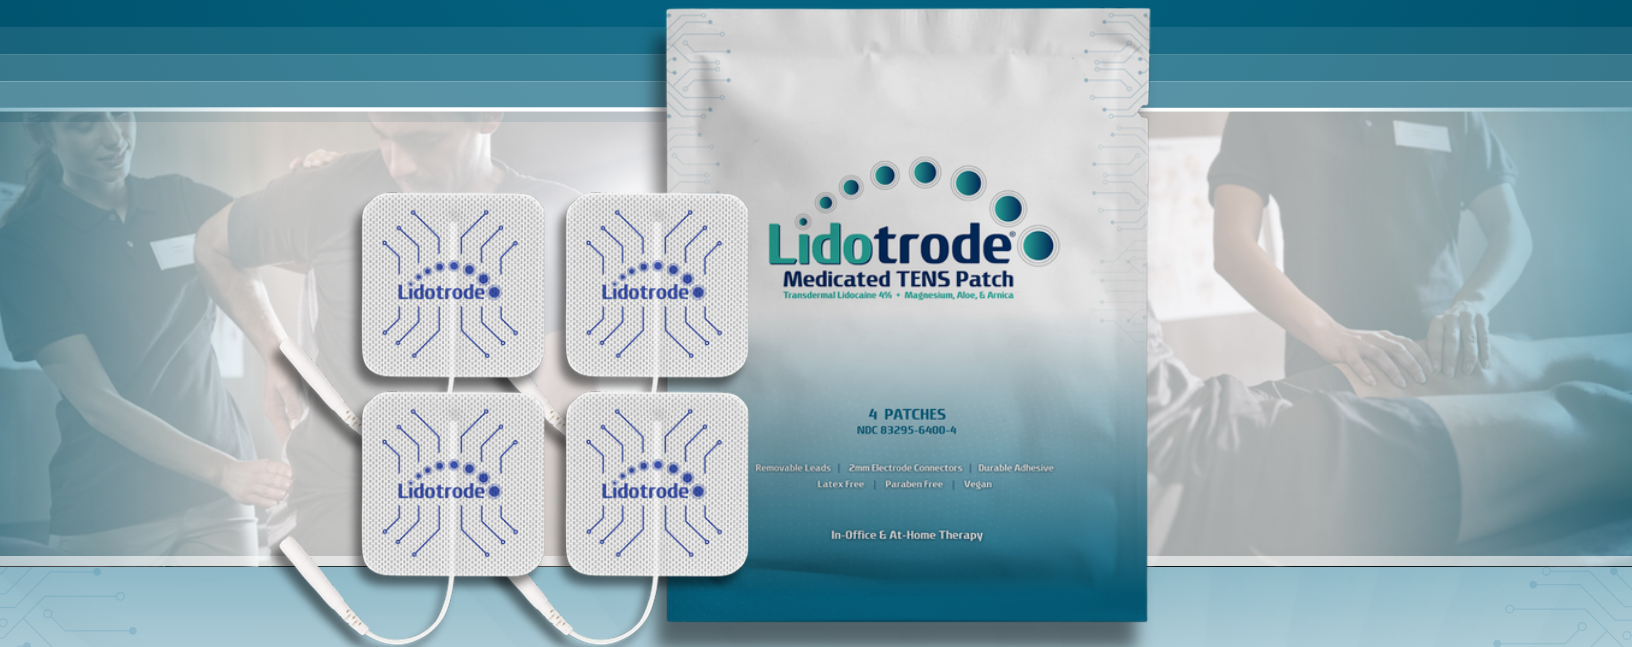

Trusted local anesthetic that manages pain by blocking nerve signal transmission.

Magnesium, Arnica, & Aloe

Natural additives to soothe sore muscles, reduce inflammation, and protect skin.

2mm Pin Connectors

Compatible with most modern TENS & EMS treatment machines.
